3. The following is an examiner's statement of reasons for allowance:

The base claims are: 1 and 12.

The present claims are deemed allowable over the references since the references of record fail to disclose or render obvious a thermal insulation system which includes a reflection layer selected from a group consisting of metal foils and metalized foils, a carrier layer of a low thermal conductivity material selected from the group consisting of microglass, paper, fabric, polyester fabric and Q-fiber fabric and a fill layer located between and contacting both the carrier layer and the reflection layer, wherein the fill layer contains powder having a compressed density of approximately 1 to 10 times a bulk density of the powder.

While the prior art discloses an insulation system comprising a carrier layer enveloping insulating powder, prior art of record fails disclose or render obvious a fill layer containing

powder having a compressed density of approximately 1 to 10 times a bulk density of the powder located between and contacting the carrier layer and reflection layer.

In sum, the prior art of record fails to teach or suggest a thermal insulation system having all the features of the base claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
